Sir:

Please ~~change~~ the Title to --Personal Computer Data Storage Card and Method For  
Transferring Information Between the Data Storage Card and Personal Computers--.

In the Specification:

Please delete the Abstract and insert the following new Abstract:

B1

--A personal computer data storage card includes a substrate layer, a magnetic medium layer, and a protective layer respectively affixed together. The data storage card is typically placed within an adapter and inserted into a personal computer floppy disk drive wherein the adapter includes dimensions compatible with the floppy disk drive to permit the data storage card to rotate about an axis perpendicular to the plane of the data storage card. During rotation of the data storage card within the floppy disk drive, the data storage card traverses floppy disk drive read/write heads for information storage and retrieval.
